PROFESSIONAL EXPERIENCE

RESEARCH ASSISTANT   **September 2024- January 2025**

New York University Abu Dhabi Software Analysis and Developer Support (SANAD) Lab

- Continuing the development of an automated system for detecting and labeling Python library migrations, enhancing the scalability and efficiency of the process.
- Expanding the PyMigBench dataset by identifying and structuring migration-related code changes from open-source projects.
- Utilizing PyMigBench and PyMigTax to automate migration labeling, improving accuracy in detecting API changes.

ADMISSIONS AMBASSADOR   **September 2024- Present**

New York University Abu Dhabi Office of Undergraduate Admissions

- Serve as a point of contact for prospective students and their families, providing detailed information about NYUAD's programs, student life, and admissions process.
- Assist with open house events, campus tours, and recruitment activities, representing NYUAD's values and commitment to diversity and inclusion.
- Share personal experiences as an NYUAD student to help prospective applicants understand the academic and social environment.

GLOBAL EDUCATION OFFICER   **September 2024- January 2025**

New York University Abu Dhabi Office of Global Education

- Coordinate international student initiatives, organizing events to promote global engagement.
- Manage logistics for study-away programs, including travel arrangements and educational workshops.
- Provide peer mentorship and support to international students, helping with cultural transitions.
- Assist in organizing cross-cultural events and workshops to foster collaboration among students.

PROJECTS

INTERACTIVE WEB DESIGN PROJECTS   **August 2024- Present**

GitHub Repository: https://github.com/Khaleeks/Khaleeks.github.io

- Developed a series of interactive web projects, exploring HTML, CSS, JavaScript, and multimedia design techniques. These projects feature scroll animations, embedded videos, and sound for immersive storytelling experiences. Designed custom graphics and illustrations using Adobe Illustrator and Photoshop, integrating multimedia elements to enhance user engagement and visual appeal.
